SUMMARY

Results-driven Software Engineer with expertise in full-stack development, AI integration, and real-time systems. Skilled in leading teams, optimizing performance, and building scalable applications. Passionate about leveraging cutting-edge technologies to drive innovation.

WORK EXPERIENCE

Associate Software Engineer, Techanzy LTD.

July 2024 - Mar 2025

- Led teams of three developers across two projects, ensuring efficient task management, timely delivery, and high-quality code.
- Developed a Dockerized Python Django backend with a Flutter mobile application, enhancing system performance and scalability.
- Implemented OpenAI APIs, introducing AI-powered automation and intelligent features.

Trainee Software Developer, Knowledge Streams

Apr 2024 - July 2024

- Built hands-on projects using Next.js, Express.js, and MongoDB, strengthening full-stack development skills.
- Achieved 95% task completion rate, demonstrating efficiency and reliability.

Backend SpringBoot Intern , Systems Limited

June 2023 - Aug 2023

- Developed backend services using Spring Boot and frontend interfaces using React/Angular.
- Implemented JWT & OAuth2 authentication for secure user access.
- Collaborated with a team of interns in developing a Cinema Web & Mobile Application, coordinating tasks and ensuring best practices.

PROJECT EXPERIENCE

HFT Ovens (Baking Order Management Website)

- Built a full-stack order management system using Next.js, Supabase, and Resend, streamlining order processing.
- Designed an intuitive UI with Tailwind CSS, MUI, improving customer experience.

F1 ChatBot (AI-Powered Formula 1 Chatbot)

- Integrated live web scraping (Cheerio & Puppeteer) to fetch real-time F1 standings and race results, and Claude-3.5 Sonnet for response generation.
- Utilized Next.js for an interactive frontend and Astra DB for chat history and vector search.

Half-Mark (Fingerprint Identification Desktop App)

- Built a deep-learning desktop application using ResNet50 & OpenCV for fingerprint recognition.
- Implemented a Flask backend with MySQL, ensuring secure and efficient data handling.

EDUCATION

Bachelor of Science in Computer Science

Sep 2020 - Oct 2024

University of Central Punjab

FSC. Pre Engineering

Aug 2018 - Aug 2020

Forman Christian College

TECHNICAL SKILLS

- **Frameworks :** React.js, Express.js, Next.JS, Spring Boot, Tailwind CSS, MUI , Flask , Django
- **Languages:** JavaScript, Python, Java, TypeScript
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, AstraDB, SupaBase
- **Certifications:**

The Complete Web Development Bootcamp (Udemy, 2023)

Google IT Support Professional Certificate (Google/Coursera, 2023)
